SUMMARY

Senior Product Manager with **8+ years** across product management, digital transformation, and enterprise technology, including **5+ years in product**. Lead **product strategy across a \$700M+ revenue portfolio** spanning 6 Business Units, building enterprise platforms across CRM, order management, loyalty, and customer experience. **Lead an enterprise AI portfolio** spanning sales, service, and operations, taking products from discovery and 0→1 development through launch, adoption, and production.

WORK EXPERIENCE

SENIOR PRODUCT MANAGER- REGIONAL IT | SAINT-GOBAIN

Jun 2024 - Present

\$700M+ portfolio | 6 BUs | **1,500+ internal** + **~90K external users** | 2 PMs

- Own product strategy across CRM, Order Management, Case Management, Loyalty, Customer Experience and Partner Engagement, balancing **0-12 month roadmaps** with **2-3 year platform strategy**.
- Delivered 18 enterprise product rollouts across 6 BUs, scaling reusable platforms to 1,500+ internal & ~90K external users
- Led 3 products from 0→1**: Scheme Management, Dealer Management & Nudge Configurator, from discovery to launch
- Improved lead conversion **from 4% to 6%**, generating **~CAD 0.8M/month** in incremental revenue across ~20K monthly leads through CRM-driven nurturing, drip campaigns and automated lead-routing workflows.
- Built and scaled One SG, an enterprise data-unification capability spanning **9 Business Units and 37K+ accounts**, continuously enabling cross-BU opportunity discovery; 5,400+ cross-BU leads represented **~\$21M in billed revenue**.
- Built a self-service reporting and dashboard platform enabling Business Units to configure reusable dashboards and visualizations; **12K+ reports/dashboards** created in 6 months post launch **with 85% adoption**.
- Led the **enterprise AI portfolio**, prioritizing 12 high-value use cases across sales, service & operations and taking **5 from concept to production**.
- Shipped an **AI-powered Account 360 product**, reaching 400+ users with **92% adoption in 3 months**, delivering purchase intelligence, next-best actions, price benchmarks, grievance detection and interaction summaries.
- Launched a voice **AI qualification agent** replacing a 5-agent call centre, processing 15K-20K calls and ~5K leads/month; improved qualification **from 60% to 85%** (+25pp) and response time **from 2 hours to 5 minutes (24× faster)**.
- Deployed a **self-learning nudge engine** generating ~35K nudges/month; improved sales-call efficiency for order placement **by 12%** through ML-based product-level insights and feedback-driven targeting.
- Led build-vs-buy and vendor evaluations for AI and enterprise platforms, assessing business value, technical feasibility, integration complexity and scalability.
- Improved customer **order-processing time by 45%** and internal processing time **by 35%**, scaling Order Management to 3K users.
- Boosted product **NPS by 15 points** and maintained **90%+ support CSAT** across 1,367 users, using feedback and KPI tracking to prioritize pain points and roadmap investments.
- Drove product adoption with MDs, GMs and VPs across 6 Business Units, influencing leaders outside my reporting line; presented quarterly product plans and business outcomes to the CEO, CTO and SVP Product.

PRODUCT MANAGER- SAINT-GOBAIN GLASS INDIA

Jun 2021 - Jun 2024

Owned CRM, Order Management & Loyalty products supporting a **\$450M+ business**

- Owned CRM product strategy across Salesforce, LeadSquared, and Freshsales, shaping customer data, workflows, and integrations with Order Management and SAP ERP.
- Consolidated 3 CRM platforms- Salesforce, LeadSquared, and Freshsales into a unified CRM ecosystem for 350+ users, delivering **~50% immediate cost savings** while standardizing data, workflows, and integrations.
- Monetized a customer-facing service management platform at \$15/month per instance, reaching 400+ paying customers (**~33% of the customer base**) and **generating ~\$72K ARR**.
- Led 8 BAs and developers from discovery through launch, translating business problems into PRDs, user stories, priorities, and MVP scope.
- Enhanced sales team's **daily productivity by 16%** by identifying & removing bottlenecks in the order placement process
- Drove 4% revenue growth** among targeted customers by routing high purchase intent leads, leading to improved brand affinity
- Launched **4 digital-led loyalty programs**, reaching **55K registered users** (75% of the universe) and 32K MAU (~43% of the universe).
- Built an **industry-first** secondary-sales capture capability, integrating ~120 dealers' accounting data into CRM; increased orders per customer visit **by 20%**.
- Increased secondary-sales **value 18%** using customer purchase data to trigger targeted sales-team nudges & gamified customer journeys
- Increased **upselling 48%** by identifying inactive customers and targeting them with gamified in-app journeys.
- Contributed to **15% YoY** primary-sales growth supported by increased demand from secondary customers in the loyalty-program
- Defined integration architecture and API requirements connecting CRM, Order Management and SAP ERP across shared customer workflows.
- Led product discovery through workshops, FGDs & stakeholder interviews to validate use cases and prioritize roadmap investments
